

SHARVARI SONAWANE

Pune, Maharashtra, India | +91 9923369618 | sharvarisonwane519@gmail.com | linkedin.com/in/sharvarisonawane-190588s

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on experience in data extraction, cleaning, Excel-based reporting, and documentation. Proficient in Python, SQL, MySQL, and Power BI for end-to-end data analysis workflows. Developed projects in AI-powered stock prediction and facial recognition using real-world datasets. Microsoft-certified in Generative AI with a strong foundation in turning raw data into actionable business insights.

TECHNICAL SKILLS

Programming Languages: Python (Core), SQL

Databases: MySQL

Data Analysis & Reporting: MS Excel (Advanced), Power BI, Data Cleaning, Data Extraction, Pivot Tables, Dashboards

Web Technologies: HTML, CSS, JavaScript

PROFESSIONAL EXPERIENCE

Support Analyst | ISERU, Pune | 2023 – 2024

- Extracted, cleaned, and validated large datasets using MS Excel to ensure accuracy, consistency, and data integrity across reporting cycles.
- Built Excel-based reports and dashboards to track key performance metrics, enabling data-driven decision-making across teams.
- Maintained documentation for recurring data processes, reducing turnaround time and improving analytical efficiency.
- Collaborated with stakeholders to identify data discrepancies and deliver timely analytical support.

PROJECTS

NeuralTrade AI — Stock Prediction Platform | HTML, CSS, JavaScript, TensorFlow.js

- Built an AI-powered stock prediction web app for 55+ NSE/BSE equities with real-time live tick engine.
- Integrated TensorFlow.js neural network to generate price forecasts with BUY/SELL/HOLD signals and confidence scores.
- Implemented candlestick charting with Bollinger Bands, EMA, VWAP, RSI, MACD, ATR, and Pattern Recognition.
- Built Fear & Greed gauge, options flow simulator, price targets, and watchlist with sector-wise filtering.

Face Recognition Attendance System | Python, OpenCV, Pandas, MySQL

- Developed an automated attendance system using facial recognition with OpenCV, eliminating manual entry errors.
- Designed a MySQL database with a Python pipeline for real-time attendance updates and data management.
- Generated summary reports and trend analytics using Pandas for absenteeism tracking and HR decisions.
- Built an end-to-end pipeline from face detection to database logging and automated report generation.

EDUCATION

Bachelor of Business Application (Computer Application)

Sarhad College, Pune | 2023 – 2026 | 79.60%

Higher Secondary Certificate (HSC)

Sarhad College, Pune | 2022 – 2023 | 82.33%

Secondary School Certificate (SSC)

Priyadarshani English School | 2020 – 2021 | 79.60%

CERTIFICATIONS

- Generative AI – Microsoft (2024)
