

SHARVARI SONAWANE

Pune, Maharashtra, India | +91 9923369618 | sharvarisonwane519@gmail.com | linkedin.com/in/sharvarisonawane-190588s

PROFESSIONAL SUMMARY

Detail-oriented **Data & Research Analyst** with experience in dataset extraction, data cleaning, and validation. Skilled in **SQL, Excel (Pivot Tables, Data Validation), and Quality Assurance** to audit large datasets and ensure high data integrity. Proven ability to organize complex information and maintain reliable data reporting workflows.

TECHNICAL & FUNCTIONAL SKILLS

Data Quality & Analysis: Data Validation, Data Cleaning, Data Quality Assurance (QA), Pivot Tables, Secondary Research, Root Cause Analysis.

Database & Querying: SQL, MySQL.

Data Tools: MS Excel (Pivot Tables, Advanced VLOOKUP, Data Validation), Power BI, Power Query, DAX.

Programming: Core Python (Pandas), Core Java.

EXPERIENCE

Support Analyst

2024 – 2025

ISERU, Pune

- **Data Cleaning & Validation:** Extracted, cleansed, and validated large-scale datasets using MS Excel to ensure accuracy, consistency, and data integrity across reporting cycles.
- **Excel Data Summarization:** Utilized Advanced Pivot Tables and lookup functions to aggregate, restructure, and analyze raw data for team review.
- **Discrepancy Resolution:** Collaborated with stakeholders to identify data discrepancies, fix errors, and maintain reliable data standards.
- **Process Documentation:** Maintained standardized documentation for recurring data validation workflows, reducing turnaround time and improving analytical efficiency.

PROJECTS

E-commerce Return & Sustainability Analysis Dashboard

Power BI, MySQL, Excel, DAX

- Analyzed **5,000+ order records** to track return trends, revenue loss, customer locations, and sustainability metrics using interactive visualizations.
- Built dynamic DAX measures and Power Query workflows to clean and model data.
- **GitHub:** github.com/sharvari0519/E-commerce-Return-Sustainability-Analysis-Dashboard.git

Credit Card Fraud Detection Dashboard

Power BI, MySQL, Excel, SQL

- Audited and processed **284,807 transactions** using SQL and Excel to extract fraud pattern insights.
- Designed real-time KPI cards, slicers, and transaction tracking tables in Power BI.
- **GitHub:** github.com/sharvari0519/Credit-Card-Fraud-Detection-Dashboard

EDUCATION

Bachelor of Business Administration (Computer Application)

Graduated: 2026

Sarhad College of Arts, Science and Commerce, Pune | **CGPA: 9.11 / 10**
